

Money is a limited resource. Make managing your money easy with our handy Checkbook Calculator. By entering transactions as they happen, you stay up-to-date on your balances, so you can then make informed buying decisions. Many of our customers rely on our Checkbook Calculator to avoid bank overdraft charges, and to keep their finances away from the many prying eyes on the World Wide Web.

It's simple! Just enter your numbers first, then function second. For example, to make a deposit of \$1,000, key in 1000 then press the **DEPOSIT** key. To write a check for \$200, key in 200 then press **CHECK**. Check your balance at any time by pressing the **BALANCE** key. The unit remember your balance, even when you shut it off. You have total control of your money.

Our goal is to design useful, easy-to-use money management tools for everyone in the family. We have received many positive reviews for our Checkbook Calculator, and would like to hear how you use it to make life easier!

Have any questions? Send us an email at sales@datexx.com

Decimal Mode / Floating Mode

Accounts

You can manage up to 3 separate accounts with this calculator, for example, a checking, a savings, and a credit card account, and are listed as 1, 2, or 3 on the right side of the calculator. Account balances are in your control. Just be sure to select the required action button for the corresponding account.

For example, let's say you want to deposit \$1,000.00 into your 1st account. To do so, please enter 1000.00 then press the 'DEP' button of your 1st account. To check that the value was entered correctly, press the 'BAL' button of the 1st account to view your balance.

Enter Deposit Amount - \$1000.00 Press \$1000.00 dollars in now deposited.

Another example, let's say you have now written a check for \$200.00 and would like to record that. To do so, enter 200.00 then press the 'CHK' button. You'll now see that your check value has been recorded and your balance is now \$800.00.

Enter \$200.00 and Press

The withdraw amount will now show.

The above procedure are the same for your other 2 accounts, marked with 2 and 3 on the right side of the calculator.

Please note that in order to record your deposits and payments, you should enter the value first, then press the corresponding 'DEP' or 'CHK' button.

GRAND TOTAL

Gives the Total amount of all account balances. It will retain account information when turned off.

Why People Love The DB-403 Checkbook

Awesome Product! - R Gold

For those that refuse to write down check, atm, and debit transactions, this is for you! I LOVE this!! I always have my balance at hand instead of having to check with the bank all of the time. Very easy to use. Highly recommended!

I Love It! - David P

Man, this thing is great, it was exactly what I was hoping for. I can punch in the total while standing in line at the store without wasting anyone's time and my account is up to date. I always know exactly how much money I have, and have not had problems with managing my budget do to math errors, overdrawn my account, or had problems calculating a tip in the five months I've had it! It's nice and flat too, and doesn't take up much purse room. Definately a great investment to anyone who hates balancing checkbooks as much as I do!

Works Great For My Needs - DB in Tulusa

I bought this about a year ago to replace a previous check-book calculator. This is just what I needed and has worked great for me ever since. The numbers are large and easy to see, and it is great to have the running balance at the touch of a button. The black letters/numbers on the white keyboard makes everything easy to see.

Highly recomend this Calculator - Bob C

Quality checkbook calculator for the price. All keys are simple to read with understandable instructions. I especially like the Grand Total KEY! Will buy another when this one gives out. Will recommend to friends. Thanks

Nice to know how much money you have at every given moment... - 4given2_4give

I am so glad I purchased this Checkbook, it has made my bill paying, purchasing, and balancing my finances, a snap! I recommend this to anyone who wants to keep abreast of their finances... The other day I was at the store and the clerk announced, "sir, your card was denied." Nice to know how much money you have at every given moment... :) Managing your finances properly is a great thing

Like the large, easy to see numbers and symbols on the keys - Beth P.

Like the large, easy to see numbers and symbols on the keys. Locking feature is plus to secure account balances from prying eyes. Like that this model has a backspace key to delete incorrect entries.

So happy - Cherie S

What I like the most about it is that it has the capacity to separate my checkbook balance in three different places. This is perfect for me because I use one part to save for our summer vacation, another to save for Christmas, and the third is my "spending money." Then I can hit GRAND TOTAL when it's time to balance my account.
