# Quick Set Up

Read Before Use

## 1 Install Batteries

Install 2 x AA batteries by removing the back cover and placing batteries in the battery compartment as shown.

Press and push the back cover in the direction of the arrow to remove.

**NOTE:** If the cover sticks, you may need to use a paper clip or screw driver to help pry it open.

## 2 Initial Set Up

**Set Time Zone** - Hold down the **UP ( + )** button until your time zone is displayed.

**Set Time** - Hold down the **MODE** button until the YEAR display flashes. Press **UP (+)** or **DOWN (-)** to enter the year then press the **MODE** button again to set and move on to the next parameter.

Continue setting month, date, hour, minutes, and temperature display format.

**NOTE:** The time must be set manually after battery installation. Once set up, the unit will sync nightly with your local weather station.
